

## XOFTspy Portable Anti-spyware

Protect Every PC You Touch

XOFTspy Portable Anti-spyware is the first U3 application to protect against spyware, the top internet threat.

### Key Product Benefits

- Clean all the PCs in in your home or small business with one portable U3 application solution
- Ensure your U3 device is protected against dangerous malware – protecting your privacy and identity
- Ensure every computer you touch with your U3 drive is safe for trusted use
- Thorough scanning and cleaning at unprecedented speed – empowering you to proceed with your business
- A tiny footprint – utilizing minimal space on your U3 drive conserves valuable memory for your data

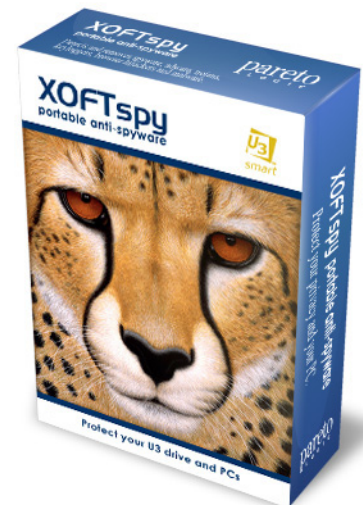

Protect your U3 Smart drive and PCs. Detects and removes spyware, adware, Trojans, keyloggers, browser hijackers and malware.

### Protect your Privacy and Identity!

Spyware can install on your home and business PCs and U3 smart drive without your knowledge. Difficulty to find and hard to remove, spyware can be used to steal your confidential information resulting in identity theft and credit card fraud. Anyone who surfs the Internet or shares files with other individuals is at risk. XOFTspy Portable Anti-spyware detects and removes all the spyware trying to install on your PCs or U3 smart drive.

*"I just wanted to send you an email to say THANKS! I've been having the problem with my computer for almost a year. Microsoft has been totally useless, Mcfee has been pretty good, though they could not help me resolve my problem. But, you guys. You have been amazing. I was so frustrated at first, but I kept at it, performing all the processes you had me do, and now my computer is running fantastic. Not only is your product great, you support is wonderful. Thanks again!"*

Warren Powell
